Towing Policy

It is the policy of GBHA that any inoperable vehicle and/or any unregistered vehicles will be towed if impeding snow removal process by not moving their car to allow plowing to be done efficiently, at the owner's expense. Further, any inoperable vehicle/or any unregistered vehicle on the property at any time, utilizing parking spaces or parked on the property, must at minimum bring the vehicle to be road worthy with registration and inspection to avoid being towed at the owner's expense.

Any vehicle not displaying a parking permit owned by a resident may be subject to towing at own expense, that is parked in resident parking. Parking permits are only issued to current residents.

Any unidentifiable vehicle parking in resident parking, clearly marked no parking spaces, in front of the dumpster or in handicapped spaces without proper issued handicapped placard to do so, may be towed at owner's expense.

Adopted by GBHA Board of Commissioners 01/28/2026
